

MINIPACK FC 76 | 2012

Brand: Minipack | Category: Packaging | Ref: TECH2026042860

AVAILABLE

MACHINE SPECIFICATION

Reference Code **TECH2026042860**

Brand **Minipack**

Category **Packaging**

Condition **Used**

Status **Available**

TECHNICAL DATA

Max Speed **300 packages / hour**

Dimensions

Machine dimensions (open hood): approximately

1260 x 810 x 1310 mm.

Machine dimensions

(closed hood):

approximately 1260 x 810 x 1165 mm.

Weight

150.00 kg

DESCRIPTION

Configuration: Semi-automatic chamber shrink wrapping machine.

Model: MINIPACK FC 76.

Year: 2012.

Packaging system: L-sealing and heat-shrink chamber packaging system.

Sealing system: Manual / semi-automatic hood sealing with integrated shrink chamber.

Sealing bar dimensions: 540 x 390 mm.

Max product dimensions: 500 x 380 x 200 mm.

Max film roll dimensions: Ø250 x 600 mm.

Packaging speed: up to 300 packages / hour depending on product size and operator workflow.

Film compatibility: PVC, Polyolefin (PPL), and centerfold shrink films.

Film thickness range: approximately 15–50 microns.

Heating system: Integrated hot-air shrink chamber with electronically controlled temperature adjustment.

Cooling system: Sealing bar cooling system with controlled shrink fan technology.

Control system: Digital electronic control panel with programmable packaging cycles and production counter.

Operation modes: Manual mode and automatic cycle mode with programmable pauses.

Safety system: Hood safety locking system, sealing blade protection, emergency stop, and thermal protection controls.

Applications: Printed products, cosmetics, retail packaging, books, food products, boxes, promotional items, and industrial shrink wrapping.

Machine dimensions (open hood): approximately 1260 x 810 x 1310 mm.

Machine dimensions (closed hood): approximately 1260 x 810 x 1165 mm.

Total weight: approximately 126–150 kg depending on configuration.

Power supply: 220–240V single-phase supply.

Power consumption: approximately 3.35–3.45 kW.
